If you look at the way the majority of games are played you realize that one person or a group of players will have a significant advantage over another unfairly and those who aren't as good will be forced to pay more for their virtual items in order to keep up with the better players. That's not fun.

I wrote all of this because I really love Roblox and I just want everyone to have fun in game without worrying about the problems that are being posted above. I think some of the problems can be fixed like muting the people who spam and the moderators should be able to keep a better eye on the areas they are in charge of.

Rated 4 out of 5 by Anonymous from Good for kids My son loves this game! It helps him study for his tests and play with his friends. His favorite part is that the creators have set everything up so that parents can control what their children see online.

On September 20th, 2018 a man by the name of Mathew T. Livingston was arrested for allegedly impersonating another user, and then luring children into sending him explicit photos and videos of themselves. He would then threaten the children with the videos if they would not send him more. [40] [41]

On December 20th, 2018, ROBLOX announced that they would be adding system tokens to enable their users to "pre-order" an item before it is put on sale. This way users can give feedback and ROBLOX could make changes if necessary.[26]. In late 2011 when the game was seemingly more popular than ever, numerous reports were made about a player called "unikraken," as well as his group of friends he allowed in his places. This user was not banned from the site for a long time, which attracted hordes of people to his server. The servers would become infested with bots, cheats, hackers and other fraudulent activities that it slowed the game for everyone. These servers have since been taken down and ROBLOX has removed as much of these malicious players' information as they could.[27]
